

PREVENT UNAUTHORIZED ACCESS TO YOUR PROPERTY

with State-of-the-Art Security Gates

VERTICAL LIFT/ VERTICAL PIVOT GATES

The **ACT Vertical Lift Gate** is a popular style in the self-storage industry, mainly because it has the smallest footprint, taking up roughly a 7'x4' area on one side of the entrance. This gate style pivots up on its heel and out of the way, standing up over the operating unit itself. It is the fastest-opening gate style, meaning less waiting to enter a facility. Also, any size truck can be driven through the gate opening without worrying about the gate impeding the vehicle.

Weather is not a deciding factor with the vertical lift or pivot gate since there is no track for the gate to slide along. This style of gate is extremely durable and long-lasting, and although it may cost a bit more, its extended life will save money down the road.

Our Vertical Lift/Vertical Pivot Gates:

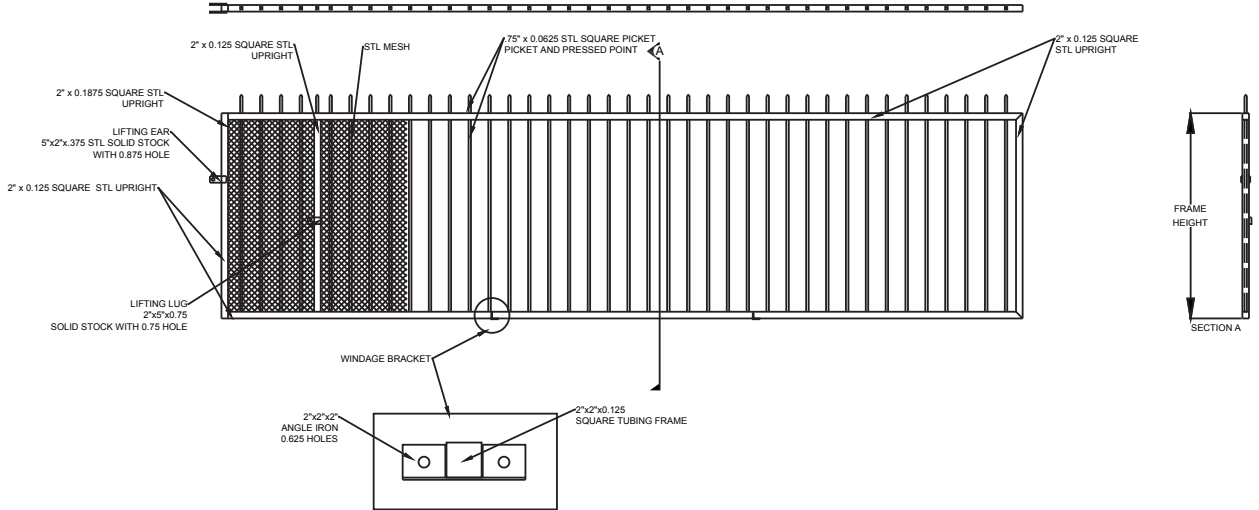

- Smallest footprint and quickest opening gate option
- Greatest longevity of any gate style
- Ideal for any climate, from snowy to warm weather
- Durability saves money in the long run
- Can be installed quickly

VERTICAL LIFT/ VERTICAL PIVOT GATES

BY JANUS INTERNATIONAL

Services Include:

- Site Review and Project Analysis
- Ornamental Design Services
- Gate Manufacturing
- Electric Gate Installation
- Routine Maintenance and Service

Security Gate Options:

- Residential Community Entrance Gates
- Residential Community Perimeter Gates
- Commercial Security Gates
- Industrial/Warehouse Security Gates
- Ornamental Security Gates
- Storage Center Security Gates
- Automatic Gate Controllers
- Automatic Gate Openers

ACCESS CONTROL TECHNOLOGY

Offers the latest in innovation and design and are created to help you improve your operational efficiencies and extend your capabilities all while securing and protecting valuable assets, resources, and people.

STRUCTURED CABLING

Designed to optimize your business communication, data transfer, and video surveillance operations with an effective network and cable infrastructure system.

SURVEILLANCE & ALARM

Includes a variety of sizable systems that are designed to deter theft and vandalism from occurring at your business or residential community.

LOW VOLTAGE SYSTEM DESIGN

Optimize uptime and scale your communication, data, audio/video, and video surveillance operations.

SERVICE & MAINTENANCE

Customized packages are designed to keep your access control and security systems running at peak performance while protecting you from typical unexpected expenses.
